STATEMENT OF VALUES

These statements are mere words until we integrate them as values in our individual lives and reflect them in our institutional policies and practices. We pledge ourselves to make them effective in the very fabric of our lives, our community and all our relationships with others, thereby enhancing the development of individuals and the well-being of society.

RESPPECT
Respect for one’s self and for others is the foundation of honor and the basis of integrity. A hallmark of our community is respect for the process by which we seek truths and for those who engage in the process. Such respect is essential for nurturing the free and open discourse, exploration, and creative expression that characterize a university. Respect results in dedication to individual as well as collective expressions of truth and honesty. Respect is demonstrated by a commitment to act ethically, to welcome difference, and to engage in open exchange about both ideas and decisions.

DISCOVERY
Learning requires trust in the process of discovery. Discovery often fractures existing world views and requires acceptance of uncertainty and ambiguity. Therefore, the university must support all its members in this lifelong process that is both challenging and rewarding. As we seek greater understanding and wisdom, we also recognize that knowledge itself has boundaries. What we know is not all that is.

RESPONSIBILITY
A sense of responsibility requires careful reflection on one’s moral obligations. Being responsible imposes the duty on us and our university to make decisions by acknowledging the context and considering consequences, both intended and unintended, of any course of action. Being responsible requires us to be thoughtful stewards of resources — accountable to ourselves, each other and the publics we serve.

EXCELLENCE
We aspire to an excellence that is approached through diligent effort, both individual and collective. Pursuing excellence means being satisfied with no less than the highest goals we can envision. Pursuing excellence involves being informed by regional, national and global standards, as well as our personal expectations. We recognize and accept the sacrifices, risks and responsibilities involved in pursuing excellence, and so we celebrate each other’s successes. We commit ourselves to this process in an ethical and moral manner.

Tell us through poetry, essays, prose, paintings, drawings, graphic art or videos. Tell us your way. There are no stylistic constraints in any category because we want to see you — your perspectives, your ideas and your thoughts. Winners will be selected in three categories: literature, visual art and digital storytelling. Each first place winner will be awarded $300, second place receive $200 and third place will receive $100. Entries are due Feb. 5 and we will announce the winners in April.
